Poster Presentation Guidelines

General Instructions

- Poster size: **A3 Size**
 - Layout: **Neat, well-structured, and visually appealing**
 - Use **minimum text + more diagrams/figures**
 - Font size:
 - Title: **70**
 - Headings: **48**
 - Content: **30–32**
 - Font: Times new Roman (Content)
 - Use **bullet points instead of paragraphs**
 - Maintain **proper alignment and spacing**
 - Use **relevant images, charts, and icons**
-

Content Structure

1. Title & Author Details

- Project title (clear and specific)
- Student names, class, and guide name
- Institute name/logo

2. Abstract (100–150 words)

- Brief summary of the project
- Include:
 - Problem
 - Approach
 - Key results
- Should be **short, clear, and informative**

3. Problem Statement

- Clearly define the problem

Department of Computer Engineering

- Explain:
 - What issue you are solving?
 - Why it is important?
- Keep it **precise (3–5 points)**

4. Review of Literature

- Include **2–4 previous works**
- Mention:
 - Author name/year
 - Method used
 - Limitation of their work
- Present in **table format (recommended)**

5. Block Diagram

- Show overall system flow
- Use:
 - Proper labels
 - Arrows for direction
- Keep it **simple and easy to understand**

6. Proposed Methodology

- Explain your approach/solution
- Include:
 - Steps or flow of system
 - Algorithms/tools used
- Use **flowcharts or diagrams instead of text**

7. Experimental Setup

- Mention:
 - Tools/software used
 - Hardware (if any)
 - Dataset details
- Keep it **short and factual**

8. Results

- Show outcomes using:
 - Graphs
 - Tables
 - Screenshots
- Highlight **key findings only**
- Avoid too much raw data

9. Conclusion / Future Directions

- Summarize:
 - What you achieved
 - Key contribution
- Mention possible improvements
- Suggest:
 - Enhancements
 - Real-world applications
- Keep it **concise (3–4 points)**

10. References

- Use **standard format (IEEE recommended)**
- Include **2–5 references**
- Example:
 - Author, “Title,” Journal/Conference, Year.
